*It's Time to Get Comfortable*<sup>™</sup>

# Why Choose a York® SINGLE PIECE AIR HANDLER?

## WHY DO YOU NEED AN AIR HANDLER?

A home comfort system has two parts: an outdoor unit, such as an air conditioner or heat pump, and an indoor unit. The air handler is the indoor unit that circulates cool air through your home in the summer and warm air in the winter. The indoor and outdoor units are designed to work together. And, when the air handler is properly matched with a heat pump or air conditioner, the result is maximum efficiency and extended system life.

## EXCELLENT PERFORMANCE. LONG-LASTING QUALITY.

The York® Single Piece Air Handler offers state-of-the-art heat transfer technology. These high-efficiency units feature rifled tube coils that are mechanically bonded to lanced aluminum fins, providing outstanding heat transfer capability, high performance ratings, and quality that lasts.

## QUIET OPERATION. 50% LESS ENERGY.

Through the use of ECM technology, variable speed models (FFV) use up to 50% less electrical energy than conventional blower motors. This technology increases SEER<sup>1</sup> efficiency ratings by up to 1.5 points. And variable speed operation also allows for quiet unit operation, eliminating noisy starts and stops.

## DESIGNED TO FIT ALMOST ANYWHERE.

The York® Single Piece Air Handler offers flexibility and quick and easy installation. Configured for upflow and horizontal applications, these units are ideal for basement, attic, slab, alcove, or crawlspace installation.

FEATURE	BENEFIT
Compact design	Fits easily into crawlspaces and attics
Minimal panels and seams	Reduces sweating in humid environments
Positive-slope drain pan	Completely drains after each cycle
Encapsulated insulation	Reduces operation noise and provides for increased efficiency
Built-in filter rack	Offers easy access
Pre-painted cabinet	Resists fading and corrosion
Electric heat options	Up to 25 kW of heat available for field installation. All heaters include staging sequences for efficient operation.

All parts are covered by a 5-year limited warranty. And for more peace of mind, consider purchasing a YORKCare™ Comfort Plan, providing total parts and labor coverage for up to 10 years. Ask your York Dealer for details.

## SINGLE PIECE (FRC)

Model	Cap. (Tons)	Nom. CFM	Application
F*RC024N06 F*FC024N06	2.0	800	AC Only
F*RC030N06 F*FC030N06	2.5	1000	AC Only
F*RC036N06 F*FC036N06	3.0	1200	AC Only

## SINGLE PIECE (FRP, FFP)

Model	Cap. (Tons)	Nom. CFM	Application
F*RP018N06 F*FP 018N06	1.5	600	AC & HP
F*RP024N06 F*FP024N06	2.0	800	AC & HP
F*RP030N06 F*FP030N06	2.5	1000	AC & HP
F*RP036N06 F*FP036N06	3.0	1200	AC & HP
F*FP040H06	3.5	1400	AC & HP
F*RP042N06 F*FP042N06	3.5	1400	AC & HP
F*FP045H06	4.0	1600	AC & HP
F*FP048N06	4.0	1600	AC & HP
F*FP060N06	5.0	2000	AC & HP

## VARIABLE SPEED (FFV)

Model	Cap. (Tons)	Nom. CFM	Application
F*FV060H06	5.0	2000	AC & HP

\*Generation indicator

1. The Federal Government has established SEER (Seasonal Energy Efficiency Ratio) and HSPF (Heating Season Performance Factor) ratings to allow you to compare energy efficiencies of heating and air conditioning equipment. The higher the SEER or HSPF number, the more efficient the product.
